Project Name: Modoc at Portesuello Intersection Improvements

Contact Information:

City Senior Engineering Technician: Malinda Reese

Phone: (805) 897-1918

E-mail: MReese@SantaBarbaraCA.gov

Project Description:

This project is going to redesign the intersection of Portesuello Avenue at Modoc Road, reducing the pedestrian crossing along Portesuello from 105' to a more standard 42'. The intersection improvement will also include lighting fixtures directed at the crosswalk for pedestrians.

By realigning the intersection, pedestrian safety will be improved for access to two schools: La Cumbre Junior High School and the Santa Barbara Community Academy which was relocated to the adjacent property in 2008. Modoc at Portesuello was identified as a location of concern through both PTA meetings and a student survey conducted in Fall 2006 at La Cumbre Junior High.

Current Schedule:

The project is currently still in the Preliminary Design phase. Final Design is scheduled to begin in Spring 2011 and go through Spring 2012, with Construction planned for Summer 2012.
